Fingerprint Algorithms

Precise Biometrics offers acknowledged fingerprint verification technology on all types of fingerprint sensors for embedded integration on any hardware platforms such as smart devices, point-of-sale terminals or computers.

Our embedded products are based on the fingerprint algorithms that achieved top results in Ongoing MINEX and MINEX II evaluations conducted by the US National Institute for Standards and Technology (NIST)

Products

- Mobile Device Security
- Mobile Toolkits
- Desktop Readers
- Desktop Toolkits
- Fingerprint Algorithms
  - Precise BioMatch™ Embedded
  - Precise BioMatch™ Mobile
- Precise Match-On-Card™
